

Department Handbook

Department: Computer Science and Engineering (CSE)

Document No: SIET/CSE/2026/07 | **Academic Year:** 2026-27

1. About the Department

1.1 The CSE Department was established in 2008 and offers B.E. CSE (intake: 120), M.E. CSE (intake: 18), and Ph.D. programmes.

1.2 **Vision:** To produce competent computing professionals who contribute to society through innovation and ethical practice.

1.3 **Mission:** Deliver quality education, promote industry collaboration, and encourage research in emerging areas.

2. Department Leadership

Role	Contact
Head of the Department	hod.cse@siet.example.edu
Department Coordinator	coord.cse@siet.example.edu
Class Advisors	Assigned section-wise each semester

3. Programme Outcomes and Curriculum

3.1 The B.E. programme is 8 semesters with 160 credits. Students must earn at least 160 credits to graduate.

3.2 The curriculum includes core courses, professional electives, open electives, laboratories, and a final-year project.

3.3 Industry-relevant electives include Machine Learning, Cloud Computing, Cyber Security, and Data Science.

4. Laboratories

Laboratory	Capacity	Timing
Programming and Data Structures Lab	60	9:00 AM to 4:30 PM
AI and Machine Learning Lab	40	9:00 AM to 4:30 PM
Networks and Cyber Security Lab	40	9:00 AM to 4:30 PM
Project and Research Lab	30	Until 6:00 PM with HoD permission

4.1 Lab records must be submitted weekly. Lab internal marks are out of 60 and the external practical exam is out of 40.

4.2 Food and drinks are not allowed in labs.

5. Final-Year Project

5.1 Projects are done in teams of **2 to 4 students** under a faculty guide.

5.2 Title approval must be obtained by the end of the 6th semester.

5.3 Reviews: Review-1 (title and literature survey), Review-2 (design and partial implementation), Review-3 (complete implementation), and the final viva.

5.4 Plagiarism must be below **15%** in the project report, checked using the college's plagiarism software.

5.5 Students are encouraged to publish a paper in a UGC-care or Scopus-indexed journal or present at a conference.

6. Student Activities

6.1 The CSE Association conducts technical symposiums, hackathons, and workshops every semester.

6.2 Students are encouraged to take MOOCs (NPTEL, Coursera). Up to **2 NPTEL courses** of 12 weeks may be credited as open electives.

6.3 Students may earn up to 4 activity points per year through participation in approved events.

7. Mentoring and Support

7.1 Every student is assigned a faculty mentor who meets them at least once a month.

7.2 The mentor tracks attendance, academic performance, and personal concerns, and escalates issues to the HoD when required.

7.3 Remedial classes are conducted for students with CAT marks below 50%.

8. Communication Etiquette

8.1 Official communication with faculty must be through college email IDs or the ERP portal.

8.2 Students may meet the HoD between 3:30 PM and 4:30 PM on working days with prior appointment.

9. Important Contacts

- Examination Cell: coe@siet.example.edu
- Training and Placement: tpo@siet.example.edu
- Hostel Warden: warden@siet.example.edu
- Grievance Cell: grievance@siet.example.edu
